Managed Cybersecurity

Cybercrime is on the rise.
In an increasingly complex and risky environment, you can't afford to let security slide.
From endpoints to network to cloud, Netpluz has your security covered.

Extending your Cyber Defence Perimeter
Managed 24x7

eSentinel™
360° Managed Cybersecurity Integrated Platform

eSentinel™ is a simplified all-in-one (360°) cybersecurity protection platform for business, an additional cyber defense layer at the ISP level.

With more businesses adopting the cloud model, it is time to take steps to protect information stored, transmitted and processed for continuous business operations.

But with all the good things the internet offer us, it also opens the door to serious, potentially devastating cybersecurity threats.
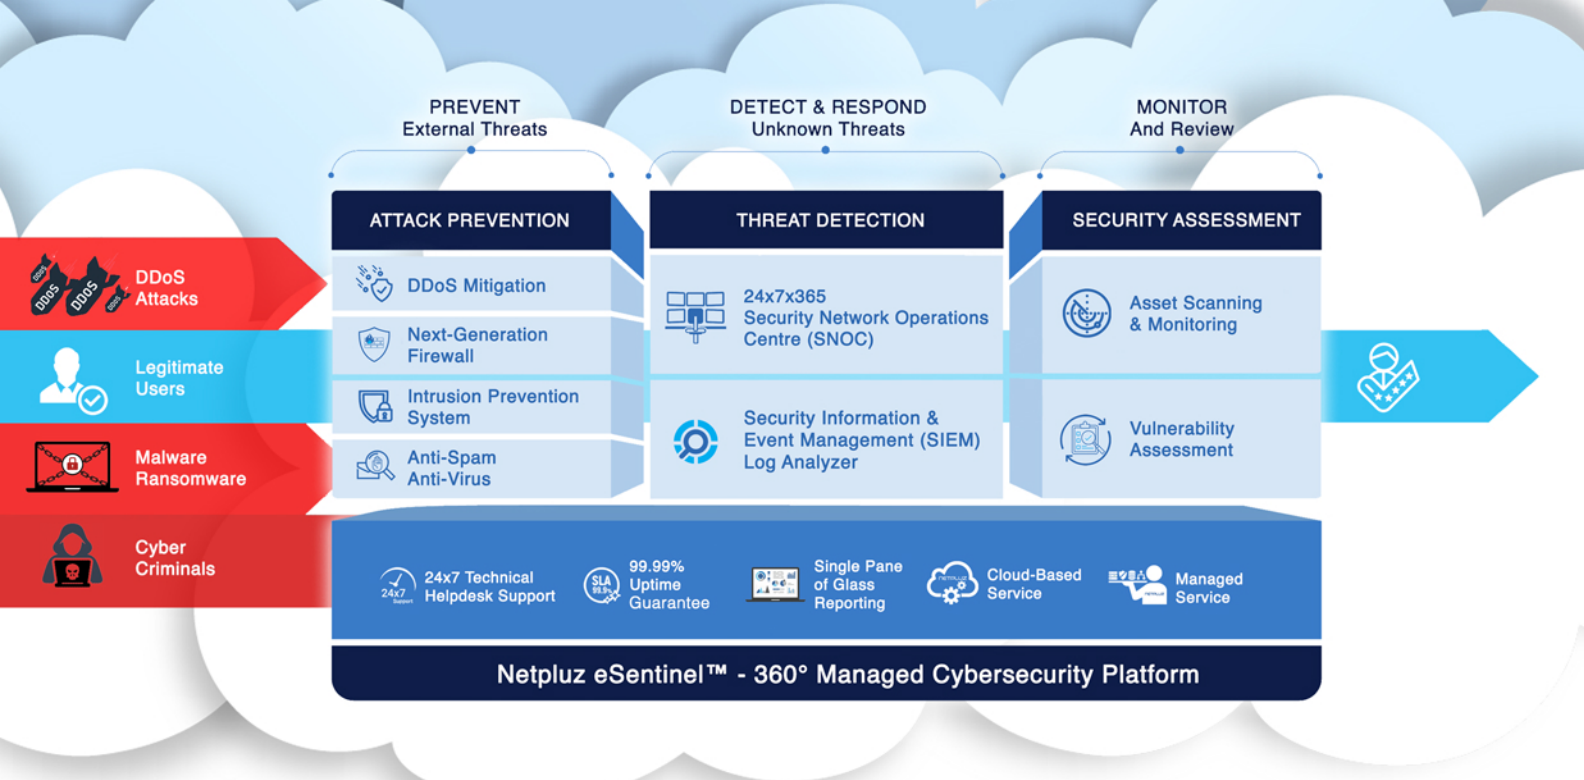

eSentinel™ offers the following protection:

☑ **Security Assessment**

☑ **Threat Detection**

☑ **Attack Prevention**

Security Assessment · Attack Prevention · Threat Detection

DDos Protection · Asset Scanning & Monitoring · Intrusion Prevention System · Vulnerability Assessment · Customer Digital Asset · NG-Firewall · SIEM Log Analyzer · 24/7 SNOC Alerts & Notification · Anti Spam Anti Virus

The above features are traditionally only accessible to bigger enterprises due to their need of secured network to protect their business financials and reputation. It is time that SMEs enjoy the same protection in this ever-evolving cyber threat landscape. With eSentinel™ consists of total cybersecurity protection, businesses can now enjoy improved security at a lower cost and risk!

ATTACK PREVENTION	THREAT DETECTION	SECURITY ASSESSMENT

- DDoS Attacks
- Legitimate Users
- Malware Ransomware
- Cyber Criminals

ATTACK PREVENTION
- DDoS Mitigation
- Next-Generation Firewall
- Intrusion Prevention System
- Anti-Spam Anti-Virus

THREAT DETECTION
- 24x7x365 Security Network Operations Centre (SNOC)
- Security Information & Event Management (SIEM) Log Analyzer

SECURITY ASSESSMENT
- Asset Scanning & Monitoring
- Vulnerability Assessment

- 24x7 Technical Helpdesk Support
- 99.99% Uptime Guarantee
- Single Pane of Glass Reporting
- Cloud-Based Service
- Managed Service

Netpluz eSentinel™ - 360° Managed Cybersecurity Platform

Redefining your First Layer of Defense to the ISP Level

Protect Your Cloud, On-Premises, and Hybrid Environments

The critical data that powers your business passes through a complex network of IT infrastructure, internal resources such as employees, and hosted applications. Furthermore, external threats and critical cyber security issues pose a 24x7 risk to your assets. It is time to extend another layer of security, to the ISP level.

360° Threat Management Solution
Cybersecurity Complexity Simplified

Prevent and detect threats that may affect your data and operations with best in class security platform managed and maintained by Netpluz. eSentinel™ integrates tools, intelligence, and professionals to offer unparalleled threat insights and coverage.

BENEFITS

- ☑ Stay Focused on your Core Business
- ☑ Increase Efficiency & Performance
- ☑ Better Security at Lower Total Cost
- ☑ Ensure Reliability of IT Security Operations

FEATURES

- ☑ Customisable Network-Layer Policies
- ☑ True Single Pane of Glass Dashboard
- ☑ Instant Alerts & Notifications
- ☑ High-Availability to ensure 99.99% Uptime
- ☑ 24x7 SNOC & Technical Helpdesk Support
- ☑ Cloud-Based Managed Service
